UCLA Fielding School of Public Health Center for Healthy Climate Solutions

Managing Director

Salary Range: \$7,492 - \$18,058 monthly

The Managing Director for Center for Healthy Climate Solutions is responsible for managing the Center's operations, development and implementation of ongoing and new research programs carried out by the Co-Directors and overall research program. The incumbent will have five key areas of responsibility: (1) refine and implement an organizational strategic plan for the execution of the UCLA Center for Healthy Climate Solutions' (C-Solutions) goals; (2) manage C-Solutions' fundraising, partnerships, and outreach efforts; (3) recruit and supervise Center staff (4) build the public presence; and (5) maximize the impact of internal and other relevant center research findings for use by communities, policymakers, media, and the general public.

Individuals with knowledge/experience in the following are encouraged to apply:

- Master's level degree or above in public health, health policy, environmental health sciences, environmental science policy and management, global health, public policy, or a related field, with at least 5 years of management experience that includes oversight of staff or equivalent combination of education and experience.
- Demonstrated expertise with program building within a leading academic institution for handling administrative, budgetary, human resources and financial principles and practices.
- Strong knowledge about climate change and health, including key organizations and individuals working in the field.
